Purpose

The purpose of this Software Testing Report is to evaluate the functionality, usability, and overall user experience of the Paws Paradise website (<https://www.pawsparadise.ie>).

As a mobile dog grooming service, the website provides information about the service options and relies on both loyal customers and new clients by offering a digital platform for booking services either through the website or by phone.

The tests cover every aspect of the website, evaluating functionality and user experience across each feature—from the homepage, which offers a general overview of the company's mission, to the services, gallery, prices, and contact us tabs.

In the end, we aim to verify that all interactive elements function as intended, assess the site's compliance with accessibility standards, and identify any bugs or issues that could hinder the booking process or general navigation.

The goal is to ensure that the Paws Paradise website effectively supports the business by providing clear, accurate information and a smooth, intuitive user interface.

The Paws Paradise website is intended for an Irish audience, covering large areas around Dublin, as the service is dynamic and can reach its clients.

Application Overview

“Paws Paradise” is a mobile grooming service that was established in 2018 and provides one-on-one care for dogs. The “Paws Paradise” website is primarily used as a web and mobile platform, offering the opportunity to book appointments for the company's services and get information about each service offered.

The website is intended for dog owners who are looking for professional and dynamic grooming services for their dogs in the Dublin area.

The website includes an online booking option for various services, a photo gallery showcasing previous work to help users choose the best service for their dog, a price list based on dog size, and a direct contact option to reach the company.

Clients can easily navigate the website through different tabs such as Home, Services, Gallery, Pricing by Dog Size including special Package Offers and Contact Us, ensuring a comfortable user experience when it comes to questions or special requests.

that enhances customer satisfaction. Must mention that the website currently suffers from several functional and usability bugs that affecting the user experience.

Recommendations

1. I will recommend fixing the features at the “Home page” which are not functioning such as “Doggy Day Care” and “Doggy Hotel”
2. While trying to book a service through the website, the 'Contact Us' page does not function as expected. After filling in your details and sending the message, several bugs occur.
3. I recommend ensuring that when you press the “BOOK/WATCH” tab on the side, it functions correctly without displaying an error page or just refreshing the page. These tabs are central and appear throughout the entire website, so their functionality is crucial
4. I recommend adding a section about the trailer, as it is the main central workplace where the dog owners can get information about the equipment that will be used on their dogs. This section should include more photos for better clarity as well.
5. Since the workplace is dynamic on wheels and can reach many places, it is important to mention for the new potential customers, which areas can have the service
6. Since the “PRICES” section is one of the most important in the site, I would recommend improving the layout of the page to be more organized, so that the size is displayed on one side and the price on the other, in a clear visually way.
7. I recommend including accessibility features on the website to ensure it serves people with disabilities. It’s not required by law, but failure to provide those options could lead to discrimination claims under Ireland's Equal Status Acts 2000–2018, which protect access to goods and services, including digital platforms

Conclusion

Although the Paws Paradise website contains several bugs, most of the issues identified during testing fall between major and low severity, which were tested by usability and functionality tests. I strongly recommend addressing the “Contact Us” page immediately, as it is essential for clients to have an easy and reliable way to submit messages through the website. This page serves as an important contact platform in addition to phone and email support that can be as another way to contact the company. Despite these issues, they do not critically impact the core features of the site. Therefore, I recommend moving forward with the website’s release while prioritizing the resolution of these minor and major concerns.

As a result, I recommend releasing the website

Description

Steps to Reproduce :

1. Enter the website: <https://www.pawsparadise.ie/privacy-statement/>
2. Scroll down to the fourth sentence inside the "Privacy Statement" introduction
3. The sentence "how we hold same" should be re-written in a correct grammatic way

Actual Result :

It should be written "the same" at the end of the sentence and not "how we hold same"

Expected Result :

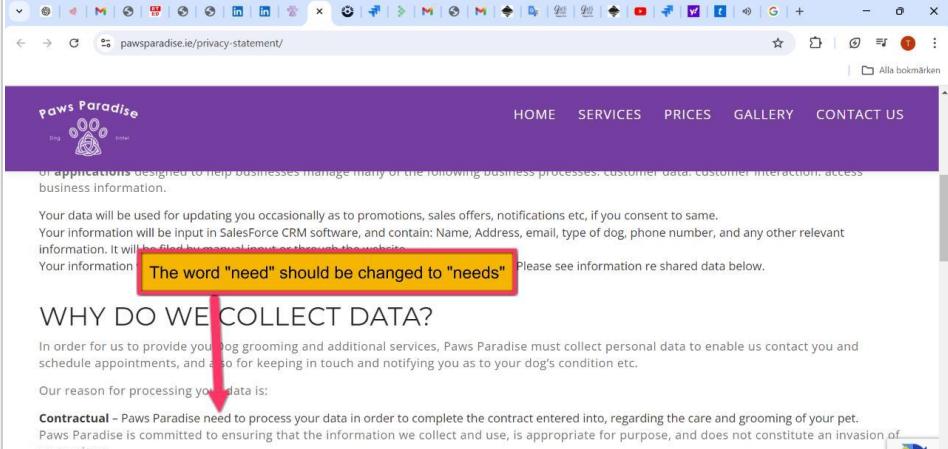

I will expect that there won't be any spelling mistakes in the "Privacy Statement" field

[PPJP-67] [Correct "need" to "needs" in final paragraph under "WHY DO WE COLLECT DATA?"](#)

Description

Steps to Reproduce :

1. Enter the website: <https://www.pawsparadise.ie/privacy-statement/>
2. Scroll down to the title "WHY DO WE COLLECT DATA?"
3. Next to the bold word "Contractual", fix the word "need" in the sentence "Paws Paradise need to process"

Actual Result :

The word "need" should be changed to "needs" in the last paragraph

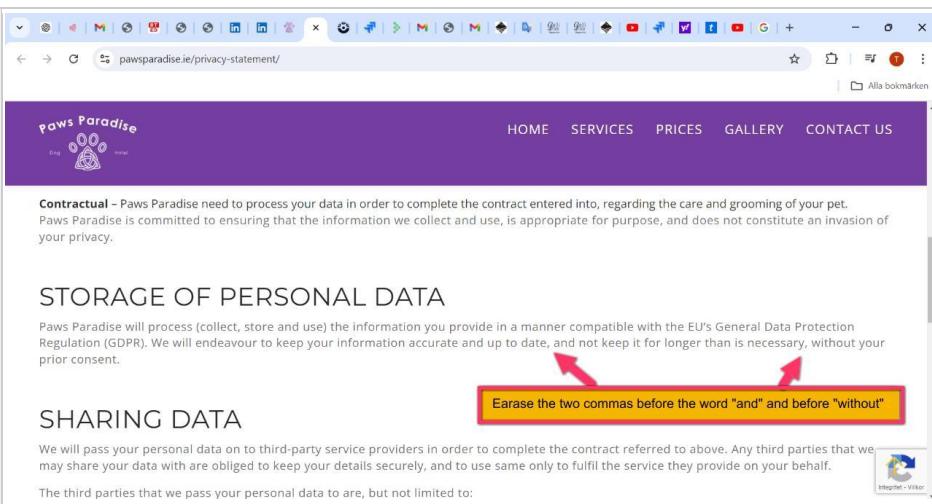

Expected Result :

I will expect that under the text of "Privacy Statement" there won't be any spelling mistakes or grammar and the test will be clear

[PPJP-68] Unnecessary comma before the word "and" and before "without" in the last sentence under the title "STORAGE OF PERSONAL DATA" Created: 24/Aug/24 Updated: 12/Sep/24

Severity1:	S5-Low

Description

Steps to Reproduce :

1. Enter the website: <https://www.pawsparadise.ie/privacy-statement/>
2. Scroll down to the title "STORAGE OF PERSONAL DATA"
3. Erase the commas in the last sentence of the paragraph " date, and not keep it for longer than is necessary, without your prior consent."

Actual Result :

There is a comma that should be removed before the word "and" and before the word "without" in the last sentence under the title "STORAGE OF PERSONAL DATA"

Expected Result :

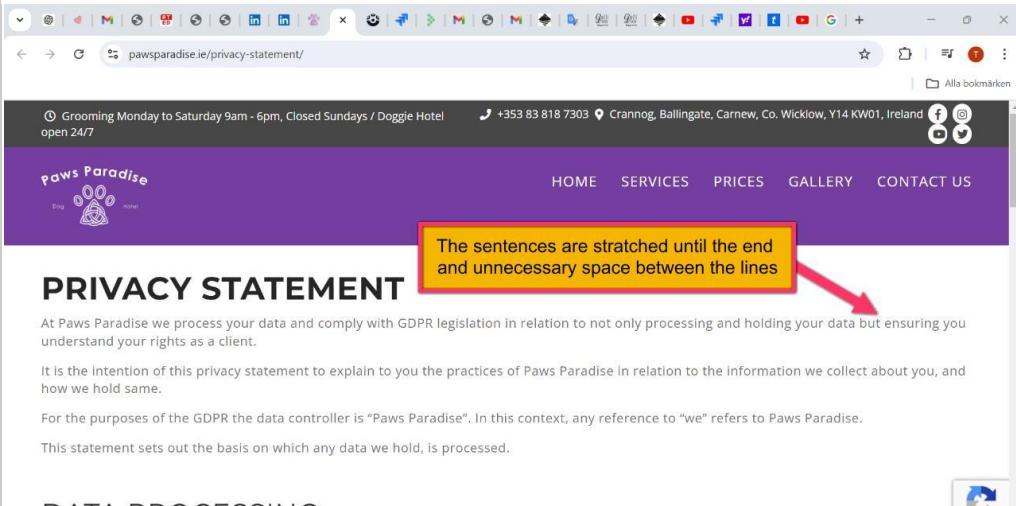

I will expect that the last sentence will be written without the punctuation marks as "date and not keep it for longer than is necessary without your prior consent."

[PPJP-69] Check for unnecessary spaces in "Privacy Statement" after clicking the link **Created:**

24/Aug/24 Updated: 12/Sep/24

Severity1:	S4-Minor

Description

Steps to Reproduce :

1. Enter the website: <https://www.pawsparadise.ie/privacy-statement/>
2. Check in between each paragraph that there is not wide space in between them
3. Check that the sentences are not stretched all the way to the end of the page

Actual Result :

The sentences are starched all the way to the entire page while they needed to be spread differently, for example the first sentence need to have a space in the middle so the sentences will be one under another.

Expected Result :

I will expect that the space will be smaller in between every paragraph and the sentences won't continue all the way to the end of the line in the page.
